PROXIMITY TO THE FIELD
Track will be removed and field dropped 4 feet. Front rows will be much closer – 44 feet from sidelines and 23 from end zones.

Larger, technically advanced video display in east end. View of lake will remain unobstructed.

Students moved to west end zone.

SUITES AND LOGES
Premium seating options will be added, including 2,500 club seats and 67 suites.

SOUTH SEATING
Entire south structure will be new. Upper deck will feature benches with backs and more leg room.

NORTH SEATING
North upper deck will remain functionally the same. Don James Center exterior and interior will be new.

NEW WEST-END BUILDING
Two-level, 70,000-square-foot facility will house all football-related activities, including locker room, medical and training, coaches’ offices as well as Husky store.

LOWER CONCOURSES
Fans will be able to walk under cover between south, west and north sections.

Students moved to west end zone.

THE NUMBERS

Premium seats
The new stadium will have about 70,000 seats. A little less than 6 percent of the overall estimated seating capacity will be premium.

Club Husky: 2,500
Luxury suites: 27 (486 capacity)
Patio suites: 40 (195 capacity)
Don James Center: 550

More leg room
Ample leg room is a priority, increasing from 27 to 33 inches in the south upper deck.

More bathrooms
Roughly a 20 percent increase overall. Men’s increased from 394 to 427 (25 percent stalls, 75 percent urinals), women’s from 342 to 457

Recycled stadium
About 50 percent of the concrete in the old stadium will be used in the new structure.

THE TIMELINE: REBUILDING HUSKY STADIUM

November through February: The lower bowl will be demolished, and about half the concrete will be pulverized and recycled, becoming part of the new stadium. The spiral ramps on the south stands will be removed.

December through January: The roof over the south stands will be cut on the truss line and peeled off, and the south stands will be taken down with cutting torches and removed.

June 2012: Construction of the new south stands begins.

September 2012: The entire structure will be in place, giving workers 11 more months for the extensive work needed to finish the project. The Huskies will play home games for one season at CenturyLink Field.

Sept. 7, 2013: Opening game against Boise State.
