Attn: FBI Laboratory

Reference -- subject: letter and envelope
 case #: 82-162398
 type of case: Green River Serial Murder
 suspect: unknown
 item #: DGRL1

Enclosed under separate cover is a letter sent to a Seattle newspaper in February of 1984. Some of the information contained in the letter has not been made public which leads us to believe the person writing it may somehow be involved. The pen marks were put on the letter after it arrived at the newspaper office.

We would like any tests you could perform to help us identify the typewriter it was typed on, and also a laser examination and any other processes you feel are needed to obtain latent fingerprints. Please forward any photos of laser developed prints to this office.

Also, we are sending a copy of the letter to the Behavioral Science Unit at Quantico, Virginia.

If you need to make further inquiry on this matter, please contact me at (206) 344-7512 or Detective Bruce Kalin at (206) 433-2013, who is assigned to the Green River Task Force.

Thank you in advance for your cooperation and assistance in this matter.
