Re: Conversation with Ron Belcher & Ed Young on Carl Leede Transfer

On the week of March 16, 1999, I contacted Ron Belcher to discuss the placement of Carl Leede into his 6th grade opening. Ron asked if Carl had any problems. I responded that from the files and information that Ed Young provided me, Carl's problem is that of organization. Ron asked if he had any problems with touching. I responded that I was not aware of any problems in this area. Ron had a few other questions and I suggested he talk with Ed.

I spoke to Ed to advise him that I had spoken to Ron and that Ron wanted to talk with him. I mentioned Ron's comment about whether Carl had any problems with touching. Ed replied that he did not. He said Carl's problems were classroom management issues.

Later, I spoke with Ron. After speaking with Ed, Ron felt better about Carl's transfer. I then made the move to place Carl at Woodin Elementary.
