William J. Scheyer, MD
11821 NE 128th
Kirkland, Washington 98034

Dear Bill:

I want to thank you for your long-time service to the athletics department. Your care and concern for student-athletes is truly appreciated.

You were previously advised that you were not the softball team physician. Until recently, you had served as a Consulting Physician for the softball program. This letter is to confirm our recent conversation regarding your status, in which we agreed that as of August 1 of this year, you will no longer have the status of Consulting Physician. As we discussed, this means that you are not authorized to provide any type of medical care for the softball team.

I encourage your continued support of the softball program, as a friend and as a fan.

Again, Bill, thank you for your dedication to Husky athletics over the years.

Sincerely,

Barbara A. Hedges
Director, Intercollegiate Athletics
